- Case is made of rugged ABS plastic
- Compact size only
4.75 L x 2.56 W x 1.56 H in. /
121 L x 65 W x 40 H mm
- Wire lengths of 500 ft./152 meters have been tested with no adverse effects
- Screw or adhesive mounting option

OVERVIEW:

The Myron L® Company's accessory for our Monitor/controller line is the Remote Alarm™. This remotely mounted AUDIBLE and VISUAL alarm connects to any Myron L® Company controller, or brand "X" controller with dry contacts (requires 24 VDC). When activated by the controller the Remote Alarm will provide both an audible and a visual alert at a location other than at the controller.

A mute button will silence the Piezo alarm for up to 10 minutes while the LED remains illuminated. After the preset time the Piezo alarm will again sound, this will repeat until the water quality is corrected. Thus allowing servicing of the system under control, while still acting as a reminder if the problem has not been corrected.

EASY INSTALLATION:

1. Only 2 wires to connect from the controller to the RA.
2. Set the time.
3. Mount on the wall or on the bench.

ORDERING INFORMATION:

Model RA: Order #RA

Optional: 200 ft./61 meters of 2 conductor insulated wire:
Order #RAW200

* Fixed timer available on SPECIAL order: Contact us with set time, and quantity for price quote.
